RE: Cyber Security Specialist

Dear Hiring Manager,

While viewing job ads online, I came across your request for a Cyber Security Specialist. I am very interested in this position.

My computer information systems degree & business management combined with training and experience has provided me with a great foundation of knowledge and skills. I learn new processes quickly and I'm good at developing security procedures, data encryption and resolving issues. I have a resourceful approach to problem-solving, tackling challenges head-on and I consider obstacles learning experiences. I'm a people person with high energy and a lot of ambition to succeed.

Thank you for your time. It would be a pleasure to speak with you and discuss this opportunity with [Target Company]. I look forward to hearing from you soon.

Sincerely,  
DEVON JAMES WILSON
